# Trout Baits & Attractors

## Viz-Trail Trout Doughs & Nuggets

A unique trout fishing dough bait.

Simply mold this dough around your hook and cast out, as the bait sinks it absorbs water and a reaction begins.

Fluorescent UV trails begin to emit from the dough, leaving a trail of scent and color around your hook.

In moving water this trail actually attracts fish up the visible trail to your hook

Manufactured using the finest ingredients available, including **X-Cite** our proprietary amino acid based attractor.

Currently available in UV Green and UV Red, Dough or Nuggets

Several strong scents available

|                     |                        |
|---------------------|------------------------|
| <b>Garlic</b>       | <b>UV Green or Red</b> |

| <b>Nightcrawler</b> | <b>UVGreen</b>         |

# Trout Baits & Attractors

## Trout Sprays - UV

Uniquely manufactured Trout booster sprays

Simply spray on your trout jig, dough bait or tube jigs

Cast out and our unique UV sprays begin to do their work. Actually traveling down with the jig or bait and **not floating off** on to the surface like other sprays, they begin working as soon as you begin working your bait.

A trail of UV color and strong scent is left trailing from your bait, attracting fish toward the actual bait.

As with all of our fishing baits and liquids these sprays include **X-Cite**, our totally unique proprietary amino acid based fish attractor.

This attractor is formulated to encourage fish to hold on when they bite, emitting the same amino acids signals that live baits and dead baits leach off when bitten.

By simulating this amino acid signal the fish is fooled into thinking that the bait isn't plastic but actually a live bait or dead bait.

This gives you the angler that tiny bit of extra time to make your strike.

Garlic  
Creamed Corn

UV Red  
UV Green  
UV Green

# Trout Baits & Attractors

## Trout Scentrails

Another unique BaitPro product. Scentrails are an extremely viscous scent that can be applied to a huge variety of baits, including but not limited to:

Doughs  
Soft Plastics  
Spinners  
Hard Plastics  
Plastic Worms  
Trout Jigs  
Tube Jigs

Works for every species of fish, including both freshwater and ocean fish, but was initially made for squirting into Trout jigs

Simply squeeze Scentrail on your desired bait and cast in. Immediately a trail of color and scent is released from your bait

All Scentrails include our proprietary amino acid attractor **X-Cite**

|              |            |
|--------------|------------|
| Garlic       | Chartreuse |
| Fish-egg     | Orange     |
| Nightcrawler | Red        |

**X-Cite** attractor is formulated to encourage fish to hold on when they bite, emitting the same amino acids signals that live baits and dead baits leach off when bitten

By simulating this amino acid signal the fish is fooled into thinking that the bait isn't plastic but actually a live bait or dead bait.

This gives you the angler that tiny bit of extra time to make your strike

Packaged in a handy 2oz pointed nozzle container to enable you to direct the Scentrail exactly where you need to apply it

# Trout Baits & Attractors

## BaitHaze - UV Dipping Dust

Similar to competitors products with perhaps one or two exceptions.

1. Our product does not wash off when it hits the water
2. Our range incorporates high level of scent

Made with highest quality ingredients, including ground trout pellets, the feed most stocked trout were reared on.

Simply wet your chosen bait, and dip it in the BaitHaze, our BaitHaze will stick to your bait due to the gelling compound we have included.

This added gelling agent will ensure your bait is active for up to 20 minutes.

Cast out and let BaitHaze do its thing.

As soon as the BaitHaze begins to hydrate, you will see particles of pellet, bits of other ingredients and a strong UV color start coming off the bait, creating a large cloud of attraction around your hook baits or lure.

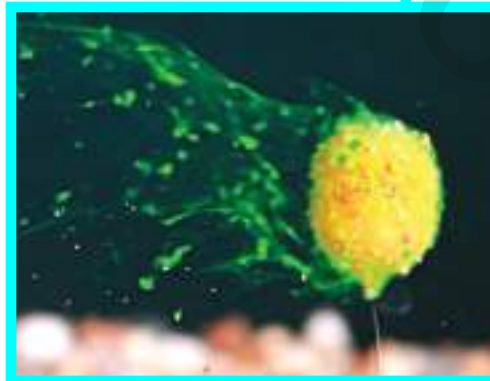

Can be used on almost anything that you can wet, including but not limited to:

**Trout Dough**  
**Mealworms**  
**Waxworms**  
**Crickets**  
**Nightcrawlers**  
**Plastic Lures**  
**Senko Worms**  
**Leeches**  
**Red Wigglers**

Available in 2 strong scents and 2 UV Colors

**Garlic**  
**Anise**

**UV Red & UV Green**  
**UV Red & UV Green**

# Catfish Baits & Attractors

## Bleeding Catfish Nuggets:

Unique bleeding Catfish Nugget bait

Simply slide onto your hook and cast out.

Nuggets are firm enough to be cast over 100 yards and still be on the hook, yet soft enough to enable hook ups.

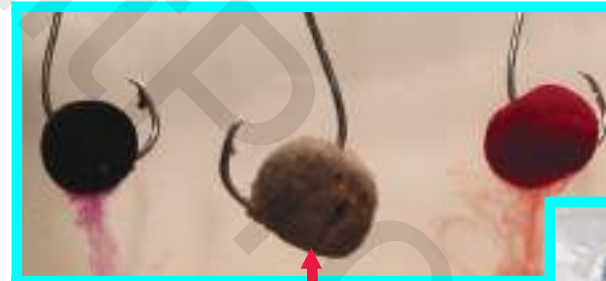

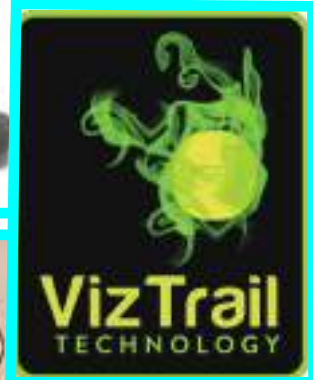

As the water works with the nugget a stream of visible color and scent bleed from the baits.

As long as the bait is in the water it will continue to bleed (In tests up to 13 hours)

In running water/strong tides, a visible trail of color and scent allows for fish downstream to detect the bait.

Extremely clean alternative to traditional dip and stink baits

Available in 4 unique flavors, and 3 bleeding colors

Competitors Catfish Bait

1lb in each bag

|               |                 |
|---------------|-----------------|
| Hot Dog       | Bleeds Red      |

# Catfish Baits & Attractors

## Scentrails - Catfish

Another unique BaitPro product, Scentrails are an extremely viscous scent that can be applied to a huge variety of catfish baits, including but not limited to:

Doughs  
Chicken Livers  
Hot Dogs  
Dead Baits  
Shrimps  
Cut Baits

Can also be used as a bait soak for cut baits, chicken livers shrimps etc - Simply pour into plastic bag add your bait and massage into the bait, leave in refrigerator overnight for best penetration.

Soaked baits will bleed for several hours

We added our amino acid based attractor **X-Cite** to the product to ensure that a pH change took place around the bait, this combined with the amino acids leaking off the Scentrails, helps to entice a savage bite

Works for every species of fish, including freshwater and ocean fish.

During testing our testers caught Bass, Trout, Catfish, Crappie, Bluegill, Sturgeon and Carp in freshwater, and over a dozen ocean dwelling fish.

Simply squeeze Scentrail on your desired bait and cast in. Immediately a trail of color and scent is released from your bait causing a larger area of attraction

Available in 7 flavors aimed at catfish

|               |            |
|---------------|------------|
| Chicken Liver | Red        |
| Carnage       | Red        |

| Fish Egg      | Orange     |
| Garlic        | Chartreuse |
| Hot Dog       | Red        |
| Lamprey Eel   | Red        |

# Carp Baits & Attractors

BaitPro's range of Carp Fishing baits is unsurpassed in North America

We manufacture the following carp products here in the US:

- **Carp Flavors & Booster Sprays**
- **Liquid Food Attractors**
- **PowerSmokes**
- **Power Dips**
- **Hookable Carp Nuggets (Shelf Life)**
- **Boiled Baits (Boilies)**
- **Feed Pellets (Hard & Soft options)**
- **Carp Powder Baits**

Carp Fishing is one of the fastest growing arms of the fishing industry in North America. The market has grown exponentially over the last 15 years

BaitPro is at the forefront of the manufacturing process for carp baits, using techniques used in Europe for over 45 years

We offer several unique products found nowhere else in North America

When you order BaitPro carp products, you can be confident you are buying the best quality available, with a proven sales record in the competitive tournament scene in North America

# Carp Baits & Attractors

## Classic Carp Flavors

BaitPro's Classic range of flavors have established themselves as the 'go to' flavor for many successful US Paylake fisherman.

Tried and tested in the paylakes of North & South Carolina, Georgia, Indiana and Pennsylvania over the last several years. (These are the original Classic carp flavors sold by BaitPro over the last 6 or 7 years.)

Only our actual proprietary flavor base has changed during that time, we feel that we now offer the most unique and very best carp flavors available to the US fisherman.

All of our flavors are formulated using the very best quality food grade ingredients.

All of our Classic Series flavors include **X-Cite**, our proprietary amino acid based fish attractant, which will enhance your chances of triggering a bite.

As we import most of our flavor concentrates from Europe, this allows us to be able to offer a range of completely unique carp flavors to the US market

Our flavors are so good, competitors buy them and attempt to copy them all of the time!!!

## Legend Carp Flavors

Legend Carp Flavors stand head and shoulders above other premium carp flavors.

Manufactured with extremely strong flavor concentrates from Europe, then blended and mixed with our very own unique flavor base here in the United States.

We specialize in mixing different complimentary flavors to create unique blends

The Legend flavor range is the equal to, and in most cases far superior to any imported flavor available in North America.

All of our Legend Series flavors include **X-Cite**, our proprietary amino acid based fish attractant to enhance your chances of triggering a bite.

A range of some of the most popular flavors in carp fishing available worldwide over the last 40 years.

Plus some of the most unique blends of multiple flavors available

# Legend Carp Flavors

- (A) Addicted

# Carp Baits & Attractors

## Hookable Carp Nuggets

Using a unique manufacturing process, using only quality food grade ingredients, incorporating over 40 years of carp bait making experience. These pre-formed carp nuggets are great for the short session fisherman, convenient and effective.

Carrying high levels of flavor for instant attraction, easily hook-able straight on your hook, this avoids the need for hair rigs, or easily fished on hair rig.

Simply slide over your hook leaving the hook point exposed and cast out.

In testing we cast these baits over 120 yards easily without them coming off the hook.

Available in 4 super strong flavors and 3 colors, including a rainbow selection using a mix of all 3 colors.

\*Color shades may vary from batch to batch.

|                    |                     |
|--------------------|---------------------|
| Banana             | Yellow              |
| Buttery Nipple     | Orange              |
| Strawberry         | Red                 |
| Sweetcorn          | Yellow              |
| Rainbow Banana     | Mix of all 3 colors |
| Rainbow Strawberry | Mix of all 3 colors |

1lb in every bag

# Carp Powder Baits

Another unique product from BaitPro

Manufactured using the finest food grade ingredients, using this carp powder is extremely simple to do

Empty contents of bag into a bowl, add a little lake water or river water, add any additional liquid flavor or attractor\* and mix until desired consistency is achieved - This should be a stiffish paste

Product should hold together when squeezed. Mold bait around a method feeder, spring feeder or fishing weight, or even just a small ball of the Powder Bait packed around your hook will work well

Cast out and wait. As the Powder Bait begins to breakdown, it releases scent and food particles into the water surrounding your hook bait, attracting carp into the area

Alternatively, mix with eggs until a stiff paste is made. Roll paste into balls approx 1/2" - 3/4", then drop into boiling water for 60-90 seconds to make a European style boilie (The longer you boil, the harder the bait becomes

Bait should be soft enough after boiling to slide around the bend of your hook or be threaded onto a hair rig with a bait needle

\*Powder Baits can be enhanced with many other BaitPro products including our Classic and Legend Series Flavors, PowerSmokes, PowerDips and Elite Series Booster Sprays

Powder Bait is available in 5 great flavors & 3 colors

|                   |                  |
|-------------------|------------------|
| <b>Banana</b>     | <b>Yellow</b>    |

| <b>Sweetcorn</b>  | <b>Yellow</b>    |
| <b>Vanilla</b>    | <b>Off White</b> |

1lb of Powder Bait in every bag

# Carp Baits & Attractors

## PowerSmokes - VizTrail

Like a lot of liquid attractants, PowerSmoke has an extremely strong scent that stimulates the fish's feeding response.

But it is visually that sets it apart to a carp. While it looks like just a green flash to the human eye, under the water the fish see a distinctive smoky cloud.

A cloud that the carp associates with other feeding fish.

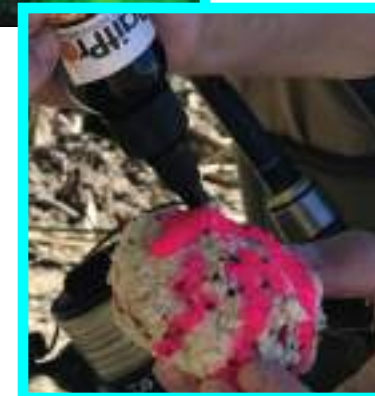

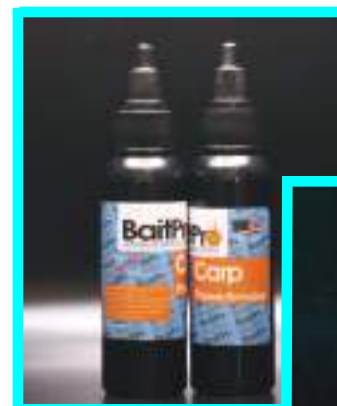

Combine the two aspects and this is what makes it so effective as a fish attractor

BaitPro partnered with a well known competitive South African fisherman who has been making and using smoke baits competitively for almost 30 years, and we feel together we have produced a winner here!

Together we formulated not only a green UV version but also a UV pink version

Simply squeeze a little PowerSmoke on to the outside of your packbait ball, or hook bait, cast out and let the smoke attract the carp in!

All of our flavors, smokes and dips include our **X-Cite** amino acid based fish attractor to further enhance our baits

Cherry Chocolate  
Concorde Grape  
Frenzied Fruit  
Green Apple  
Kicking Blueberry  
Kicking Strawberry

Kraken  
Nouvelle Fizz  
Original Monster Crab  
Peach  
Peach & Black Pepper  
UltraSpice

# Carp Baits & Attractors

## PowerDips - Bait Dips

Unique formula makes this product a much needed addition to any fisherman's arsenal. Tried and tested in the competitive world of US Paylaking, where extra bites often means extra winnings

An exceptionally sticky consistency ensures PowerDips stick to your hook bait for a serious length of time.

Once in the water a steady and strong trail of scent and color is given off

This leaves an area around your hook bait that has intense flavor, pH, and amino acid changes, often triggering a bite in the hardest of conditions.

As with all of our products, our PowerDips contain **X-Cite**, our unique amino acid based fish attractor, a proven blend of several of the amino acids known to stimulate carp into feeding.

Chocolate Malt  
Green Apple  
Hot Dog  
Mulberry Florentine  
Original Monster Crab  
Strawberry & Cream  
UltraSpice

# Carp Baits & Attractors

## Boilies & Boilie Feed Pellets

### BOILIES

Made in the USA with the finest food grade ingredients, our boilies are highly digestible, full of all of the attractors, nutrients, unique flavors, amino acids and proteins a carp actively seeks out to feed on

We have a full European boilie rolling line in our factory, capable of producing well over 2500lbs of bait every day if required.

We start with a basemix full of proteins, flours and binders, we add liquid foods, attractors, and flavors, culminating in a highly attractive carp bait

We then add **X-Cite**, our proprietary blend of proven carp attracting amino acids, ensuring you have the very best baits available in North America

We can manufacture almost any flavor or color you would want

Contact Us for custom flavors or for wholesale contract rolling. We manufacture several OEM products for third party businesses

1 kg and 5kg Bags

# Carp Baits & Attractors

## Boilies & Boilie Feed Pellets - Cont'd

BOILIE PELLETS - (Hard Pellet or Soft Pellet Available)

Our Boilie Pellets are manufactured in the same way as our boilies, and can be ordered in hard or soft versions

When introduced into the water, they will break down, changing the pH of the surrounding water, an extremely important feature in fish attraction

The pellets will begin emitting food signals and leaving a flavor filled area that carp will not be able to resist

Great for use in PVA bags or sticks

Currently available in 8mm & 12mm sizes, and in flavors to match our boilie range

**PLEASE NOTE:** We do not regularly stock all flavors of pellets.

If we don't have your flavor in stock at the time of order, we will make fresh pellets for you. This adds 2-5 days to your delivery time

1 KG Bags

Boilies & Boilie Pellets available in following flavors:

**CocoBerry**  
**Double Coconut**  
**GLM & Berry**  
**Peach & Black Pepper**  
**Pineapple**  
**Scopex**  
**UltraSpice**

# Carp Baits & Attractors

## Elite Bait Booster Sprays:

Designed to boost bait balls or dough baits these powerful sprays combine some of our best scents, and also unique blends.

Sprays also contain **X-Cite**, our unique amino acid based fish attractor, custom formulated with all of the scientifically proven amino acids known to trigger carp into feeding

Simply spray onto your hookbaits and pack every cast.

## Elite Series Bait Booster Sprays - Carp

### Betalin Series Booster Sprays

- Betalin Black - Sweetener & Blackcurrant
- Betalin Hot - Sweetener with added heat
- Liquid Gold - Sweetener with fruit
- Liquid Money - Sweetener with extras

# Crappie Baits & Attractors

## Signature Series UV Crappie & Sunfish Sprays:

4 different amino acid loaded scents included in this range of UV Booster sprays for Crappie & Sunfish

Initially endorsed by Oklahoma based Crappie guide Todd Huckerbee, who was happy to have his name associated with these sprays, he saw the real value in our amino acid based scent sprays

Two of our range incorporate two different UV colors (UV Red & UV Green) which are visible at various depths and under differing light conditions

We added our proprietary amino acid based attractor **X-Cite** to ensure fish would be stimulated by a local change in pH, and sense the amino acids which are the building blocks of life, and encourage the bite and make the fish hold on longer

Available in 4 scents with UV colors

Garlic Spray on a small Crappie jig showing dispersal of scent in water

|               |                            |
|---------------|----------------------------|

| Bloody Minnow | UV Red & UV Green Combined |
| Bloody Shad   | UV Red & UV Green Combined |
| Nightcrawler  | UV Red                     |

## Bass Attractors

### Bass Sprays - UV

Unique fishing product, this time for the Bass fisherman

Manufactured from the highest quality ingredients.  
Extremely strong Garlic or Nightcrawler scent

After the success of our UV Trout Sprays, several people requested a spray aimed at Bass

Incorporating a similar UV technology to our Trout baits, we have hit both sides of the UV spectrum with these Bass sprays, so no matter the water clarity, we've got you covered.

Wherever you see the UV trails, you are actually also seeing the dispersal of scent, giving you two fish attractors - Visual and scent.

Packed with the same amino acids that cause a fish to initially strike. These amino acids mimic the amino acids released from a bitten or dying bait-fish, this causes the Bass to hold on for a few seconds, greatly enhancing your chances of a hook up.

Can be used on all kinds of baits, including plastics, hard lures, crank baits, frogs etc etc

|                     |                              |

| <b>Nightcrawler</b> | <b>UV Red &amp; UV Green</b> |

# Sturgeon Baits & Attractors

## Bleeding Scentrails for Sturgeon

Yet another unique BaitPro product

Specifically manufactured after numerous requests from competitive sturgeon fishermen in the California Delta, we put together an extremely thick and sticky Bleeding Sturgeon Sauce for applying to sturgeon baits

During initial field testing fishermen using this product out-fished others using plain baits by over 15:1

Scentrails are an extremely thick and sticky sauce with strong flavors, and long lasting colors

Squeeze Scentrails onto your hook bait after tying your bait on and cast out, the powerful scent begins to leak immediately, creating a cloud of scent and color around, and downstream of your hook bait

Our Pro staff also had great success using Scentrails as a 'marinade' or bait soak for their sturgeon hook baits

To use as a soak, squeeze Scentrails into a plastic baggie, drop in your herring, lamprey eel, shrimps, salmon eggs or worms

Rub the Scentrail into baits and place in refrigerator for a few hours or overnight.

The Scentrails will impregnate the baits and allow a lot of the product to be taken 'on board' by the baits resulting in a bait that lasts a long time in the water

**BLOOD & GUTZ** - Easily our smelliest and some say offensively smelly scents, a blend of some of the most potent fish scents available. This scent has proven to be a killer over this past winter

**SURF SMELT** - A very unique smell, kind of like the smell of 'Walking on the beach at low tide'

**CARNAGE** - An extremely pungent scent, with a hint of rotting fish! This product actually contains a natural chemical found in rotting fish, which is responsible for catching 'fish eating' fish for decades

**STINKY FISH** - Just as described, a stinky fish scent.

**FISH EGG** - Great for adding to your real egg sacks

**GHOST SHRIMP** - We used actual Ghost Shrimp when blending this scent

**LAMPREY EEL** - A favorite Sturgeon bait on the West coast, responsible for 1000's of fish during the year

# Off-Shore Baits & Attractors

## Scentrails - Off-shore

Designed with the help of several off-shore anglers here on the West Coast, where competition means that having that extra edge is always a help.

Manufactured using the best ingredients available, including raw natural products.

**SEA SMELT** - A very unique smell, kind of like the smell of 'walking on the beach at low tide'.

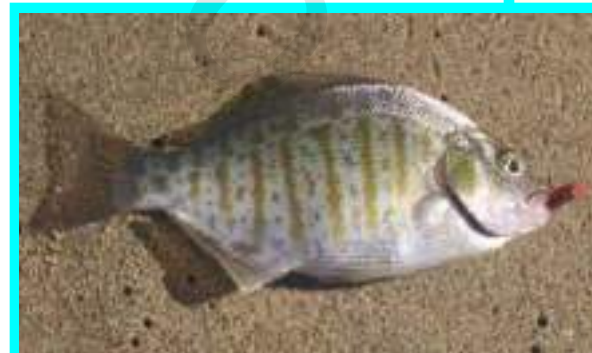

**CARNAGE** - An extremely pungent scent, a hint of rotting fish! This product actually contains a natural chemical found in rotting fish flesh, which has been responsible for catching 'fish eating' fish for decades.

**GHOST SHRIMP** - We used actual Ghost Shrimp when blending this scent

**LAMPREY EEL** - A favorite Sturgeon bait on the West Coast, responsible for 1000's of fish during the year.

**SAND EEL** - A mainstay in the off-shore fishing community, distinct scent is reminiscent of a bucket of seafood just turning bad. Contains the same natural ingredient found in rotting fish flesh. Drives off-shore fish wild!

| Carnage      | Red |
| Ghost Shrimp | Red |
| Lamprey Eel  | Red |
| Sand Eel     | Red |

# Carp Fishing Hooks

## BaitPro Gaper Carp Hooks

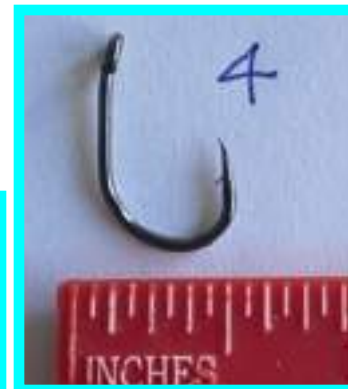

The original 'CarpPro' Gaper Hook

PLEASE DO NOT confuse these exceptionally strong and sharp Japanese manufactured hooks for the cheap Chinese copies available elsewhere

Finest forged Japanese high carbon steel, chemically sharpened, resulting in ultra sharp hooks, with a 10° turned down eye

These hooks will not let you down, when it matters  
Often copied, never bettered!

Currently available in sizes 2 & 4

10 Hooks per pack

**Rep Agency - Western Outdoors Sports Marketing (714) 743 8099**

**US East Coast Distributor - Tim Howard (336) 692 2162**
